Compliance with RMF Controls

To ensure compliance, the following steps should be taken:

- * Flaw remediation: Since there are no patches available, there is nothing to remediate.
- * Identification, reporting, and corrective action: No actions need to be taken as there are no security vulnerabilities identified.
- * Configuration management: The current configuration of the system does not require any changes due to the lack of updates.
- * Vulnerability checks: Regular vulnerability checks should continue to ensure the system's security posture.

Recommended next steps

The following steps are recommended:

- * Review and assess updates to ensure compliance with RMF controls
- * Schedule patch deployments if necessary
- * Provide guidance for update documentation to maintain accurate records

Risk Assessment
