Compliance with RMF Controls

Please follow the recommended steps for compliance:

- * Identify any identified issues and report them to the relevant authorities.
- * Implement configuration management practices to ensure consistency and accuracy.
- * Conduct vulnerability checks to identify potential security risks.
- * Schedule patch deployments as necessary, if any updates become available in the future.

Recommended next steps

Please review the system for any potential vulnerabilities and schedule an update cycle if needed. Also, create documentation to track and record any future patches or updates.

Risk Assessment

No pending patches or updates are currently available. However, it is essential to regularly conduct vulnerability checks and implement configuration management practices to minimize the risk of security breaches.
